Request

Opportunities to pilot adsorbent material.

We are developing new adsorbent material that has high affinity e.g. to Sc and U. The material is to be used in extraction of valuable metals or in purifying waters. We would like to test our material in real mine waters.

Cooperation Requested

1. Research co-operation

Request

Opportunities to pilot on-site metal analysis method

We develop a new method that enables on-site metal analysis. We wish to partner with companies that would use such technique and offer opportunities for pilot testing.

Cooperation Requested

1. Technical co-operation
